

Meriam Mhadhbi

Frontend Developer

meriammhadhbi916@gmail.com • +216 99413156 • Sousse,Tunisia

Profile

Frontend-focused Full-Stack Developer with 4+ years building responsive, high-performance web interfaces in React, Next.js, and TypeScript. Experienced across the full delivery cycle — UI/UX design collaboration, frontend architecture, performance optimization, and API integration working in Agile teams alongside designers, backend engineers and QA. Delivered 7 production platforms spanning e-learning, recruitment, and business dashboards.

Professional Experience

Frontend Developer <i>SoftyLines</i>	2022 – Present Sousse, Tunisia
- Built 7 production web platforms (e-learning, recruitment, dashboards) in Agile sprints with cross-functional teams. - Developed responsive interfaces in React, Next.js, and TypeScript across desktop, tablet, and mobile. - Led performance optimization on data-heavy dashboards through code splitting, memoization, and lazy loading. - Translated UI/UX designs into reusable component libraries used across multiple client projects. - Integrated REST APIs, WebSockets, and Strapi CMS with Node.js backends. - Built full-stack web applications using AI-assisted development to speed up delivery.	

Education

Bachelor's Degree in Digital Technologies <i>Horizon School of Digital Technologies</i>	10/2022 – 10/2025 Sousse, Tunisia
---	--------------------------------------

Technologies

Languages JavaScript, TypeScript, Python, HTML5, CSS3, Sass	Frontend React.js, Next.js, Redux, Tailwind CSS, MUI, React Native
Practices Responsive design, UI/UX design, Performance optimization, Agile/Scrum, Cross-functional collaboration	Backend Tools Node.js, Docker, WebSocket, Git, GitHub

Projects

RH Recruitment 	06/2023 – 08/2023
- Developed a comprehensive recruitment platform enabling companies to post jobs and candidates to submit applications - Ensured code quality, architecture review, and performance optimization across React and Next.js implementation - Tools Used: Next.js, React, Material-UI, Node.js, TypeScript, Quality Assurance	
SoftyDinner 	08/2023 – 09/2023
- Developed a digital solution designed to simplify food reservations within corporate environments, allowing employees to reserve meals in advance, reduce waiting times, and minimize food waste. - Designed intuitive admin dashboard interface using React and TypeScript, maintaining efficient and easy-to-manage codebase.	

- Tools Used: React, TypeScript, SCSS, Quality Assurance

Softy Skills

09/2023 – 12/2023

- Developed a web training platform offering practical web development courses with a focus on hands-on learning and real-world application.
- Built responsive interfaces and integrated content management using Next.js and Strapi.
- Tools Used: Next.js, Strapi, TypeScript, SCSS, Quality Assurance

Annodoc

11/2023 – 11/2023

- Focused on building the landing page with a clean, responsive design, optimized user experience and integration for content management.
- Tools Used: TypeScript, SCSS, Next.js

Star Business

12/2023 – 02/2024

- Contributed to the development of a consultancy platform that simplifies business setup and management in the UAE.
- Focused on designing and building the landing page with a modern, responsive layout and Strapi integration for content management.
- Tools Used: Next.js, Strapi, SCSS, SEO optimization

Ostedhy

06/2024 – Present

- Developed interactive frontend features for an education-based website where students can directly communicate with their tutors using the progress-tracking and learning system.
- Developed the landing page along with student and teacher websites, and the admin dashboard, ensuring a seamless and responsive user experience.
- Tools Used: React, Next.js, TypeScript, SCSS, Strapi, Quality Assurance

Imtiyaz Academy

01/2025 – 03/2026

- Developed a digital learning platform delivering Mauritanian national curricula online with detailed lessons, interactive exercises, and regular assessments.
- Built the landing page, student and teacher websites, and the admin dashboard, ensuring a seamless, secure, and user-friendly experience across all roles.
- Tools Used: React, Next.js, TypeScript, SCSS, Strapi, Quality Assurance

chichkhan

01/2026 – 2026

- Solved UI-related issues as well as functionality and integration bugs
- Performed code review, troubleshoot, and optimization to ensure stability and reliability of the app
- Tools Used: React, Next.js, TypeScript, Node.js, Material-UI, REST APIs, QA

Boritos

01/2026 – 2026

- Solved UI-related issues as well as functionality and integration bugs
- Performed code review, troubleshoot, and optimization to ensure stability and reliability of the app
- Tools Used: React, Next.js, TypeScript, Node.js, Material-UI, REST APIs, QA

SoftyWord

04/2026 – 2026

- Built SoftyWord a real-time collaborative text editor with rich text capabilities, import/export to PDF/Word files, speech-to-text functionality, and multilingual spell checking.
- Integrated the web editor, back-end API, mobile application, and design language all within a single codebase for consistency and performance.
- Tools Used: React, TypeScript, Vite, Tailwind, TipTap, Yjs, NestJS, Node.js, Prisma, PostgreSQL, Flutter, Docker, Nx + Bun, GitLab CI/CD, Claude (AI-Assisted Development / Vibe Coding), Quality Assurance
